Replacement large thread spool cap for Janome domestic sewing machines.

Print instructions Category: Hobby Summary

Replacement large thread spool cap for Janome domestic sewing machines.

Disc and centre printed separately and will push together. A little sanding might be needed to get a fit. If needed superglue can be used to fix them together. A felt disc can be cut to fit inside the disc lip.

Note the part orientation before assembly! The lip on the disc faces away from the centre insert.

FreeCAD design file included to allow dimension changes
