This 3D printing model is divided into two parts of a heart that fit together like a puzzle. One part contains the inscription 'Dog Mom' and serves as a keychain, while the other part contains the inscription 'Mama's Boy' and is intended for a dog collar. These two parts of the heart are a great way to show your love for your dog and to be constantly connected even when you are not physically together. Each part of the heart is designed to fit precisely into the other, giving the entire model a unique and elegant appearance. Create your own heart for you and your dog, and let everyone know how much you value it!
