I'm glad to introduce the PS5's controller stand that I created.
Nice design and perfect fit, this is what I wanted for this stand.

To achieve this, I scanned the actual playstation 5 controller very accurately :

[DualSense PS5 Controller par V3Design | Boutique Printables](#)

Then I worked the design very carefully. The wings recall the design of the PS5.

Thanks to my design, it is easy to customize its stand by mixing colors if desired!

2 Versions :

1. **Simple Stand**

Only one part, easy to print, simple!

2. **Color Stand**

3 parts : 2 Wings and 1 main Body

Easy to color your own stand !

2 Countersunk head screws :

M4 20mm-25mm for Color Stand version

(or glue if you prefer! your choice!)

Optional Anti-slip trick :
I add 5 holes for transparent rubber feet
(8mm Diameter - 3mm of thickness)

Print settings:
No raft needed :)
0,1-0,2mm layer height

You want to buy it? Just visit my Etsy store :
