These are the holders for **1/2" (13mm)** and **3/16" (4,6 mm) Gardena** and similar drip hoses. Soaker hoses fit as well.

5th Sep. 2023.

- Added a hook for **3/16 (4,6 mm)** drip hoses, short and long variant. Long variant is as long as 1/2 version.
- Added hose holders so they could be fixed to wooden surfaces, M3 or M4 screw will fit.

I printed all of the parts in PETG, 0,3mm layer height on 0,4 mm nozzle, no supports are needed. PLA will work just fine.

Outer diameters are 16 mm for 1/2 hose and 6,2 mm for 3/16 hose.
