Small and Thin case for mini 12864 display.

There's a couple of Mini 12864 display cases around, but I couldn't find a minimalistic one that would fit well on a small printer.

The case is generic and can be used on any frame.

I've provided "holders" that fit nicely on a Skirtless V0.1. They are also compatible with any 1515 Alu Frame .

Hardware:

1. Use 4x FHCS 2x12 Wood Screws (or similar) for the Display Case (and attaching to Holders).
2. Use 2x BHCS 3x10 Machine screws for attaching to 1515 frame (Same as in Voron 0 BOM).
