this is a coin i designed and used for my tabletop rpg campaign, i needed this to fit my lore and didn t find anything close, i uploaded because someone else may need it too.

i am by no means a professional in this field, i am a student who enjoy tabletop and 3d printing in my free time, my design for sure will have flaws and negatives but for my use is good enough.

feels free to modify for your own needs!

enjoy!

Rafts:

No

Supports:

No

Resolution:

0.06 mm

Infill:

10

Filament brand:

i printed with 3 years old cheap filament and came up reasonably well

Filament color:

wathever

Filament material:

tried with pla and pla+

post printing

some residue may be on the top surface so you may need to do a little post production.
