Summary

Wall mount for HSW that uses 3M command strips or double sided tape.

I found the Honeycomb Storage Wall design, but all the wall mounts provided were for screws. To avoid making holes in the wall with the screw mounts, I designed this small part so you can mount the HSW using 3M command strips or double sided tape. This part mates with the 'insert-hollow-dual' part on the HSW main page ([Honeycomb storage wall by RostaP | Download free STL model | Printables.com](#)), so you can use it to mount to the wall and also to join the hex walls together.
