Summary

A simple remix for a filament sensor mount for the Ender 5 (Pro)

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [filament](#) [mount](#) [ender](#) [sensor](#) [pro](#) [remix](#)
[thingiverse](#)

A small remix for the Filament Runout Sensor. I made that it can be used without any screws for mounting.

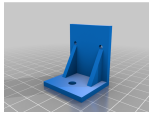

Please use supports and adding a brim might be helpfull.

Edited with Tinkercad.

Works also with the following Filament Sensor:
