Summary

made this for my 2014 Ram 1500 electronic shifter

[rotory](#)

this will fit gen 3 Ram with electronic transmission gear selectors. I would guess it would work for other Gens but check for fit first and let me know if it will work with any other years and I will update this post. It measures 36.8mm in diameter. I affixed with silicone because you will need to remove this to get to a screw under if you ever needed to remove the knob altogether.
