Small sanding blocks good for post printing wet sanding. We like to use and created them to wet-sand earrings.

Round one has 10mm radius. Flat one is 10mm wide with 5 degrees negative sidewalls for easier sanding in the corners. Effective lenght is 45mm. Total lenght 105mm.

Cut piece of sandpaper long enough to extend under your fingers to keep it place. The profile of the block makes it easy to keep sandpaper in place and comfortable to hold.

Feel free to share, modify or sell our design in any format.

### Print Settings
