Introducing the perfect storage solution for your light bulbs - a set of rectangular blocks with E27 and E14 threads!

This 3D model is ideal for anyone looking to organize their collection of light bulbs in a clean and efficient manner. The E27 variant block is perfect for storing larger light bulbs, while the E14 variant block is great for storing smaller bulbs. Because the E14 variant block is half as wide as the E27 variant block, you can mix and match them to create a neat and tidy display.
