Summary

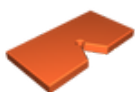

A set of templates for routing a Celtic knot design

[Hobby & Makers](#) > [Other Ideas](#)

Tags: [router](#) [woodworking](#) [templates](#)

Use these templates to route a celtic knot design. You can use a collar to either route an outline or route the entire opening of each template. Attach the corners (Celtic template D-you'll need to print three of these) to your workpiece with double-stick tape, then use each of the templates to route the design. You'll need to use each template three times, rotating by 120o between routes for a total of nine routes.
