This is a fishing game I made for my daughters by modifying this Thing: <https://www.thingiverse.com/thing:1564135>

I added loops to the fish and then designed a rod and hook to make the experience super authentic.

The fish also have numbers on the bottom (1, 2, 5, or 10) so you can take turns fishing and then tally them up to see who had the highest score.
