Summary

A quick to print model kit of the Hawker Hurricane fighter plane!

[Toys & Games](#) > [Building Toys](#)

The **Hawker Hurricane** was the workhorse of the RAF during the **Battle of Britain**, mass produced yet massively effective in its roles of repelling the Nazi war machine from British skies, with over **14,000** being produced over the course of the war. The 'II-C' variant this kit is based on was equipped with 4x HS.404 20mm autocannons for some added umph!

Included are two different fits, a tighter variant labelled '**Ti**', and the old standard looser fit labelled '**Lo**'.

You can make it **EVEN TIGHTER** by increasing the Z-scale by **15%**. For those uninterested in the card format, there are frameless variants included!

Included is a fast printing fit tester for both Regular and Tight variants!

Print at **0.2mm layer height**, there really is no benefit from printing at a higher resolution and it could affect the fit.

Be sure to print with **100% infill** for it to hang straight as the weight distribution can be sensitive!

Having trouble getting the tolerances just right? **Set Outer Walls to print first.**

Makes greatly appreciated, always glad to see them! Happy Printing!
