updated 30. 9. 2023 | published 30. 9. 2023

Summary

A Gridfinity 1x1 bin to store a full set of 10 spare nozzles for the M5 and M5C! Compatible with Volcano nozzles.

To go along with my [AnkerMake Gridfinity Shelf](#) I wanted a nozzle holder to hold exactly an entire spare nozzle kit from AnkerMake, which comes with 10. It remixes [Dark Squirrel Designs](#)'s awesome 1x1 Gridfinity bin, which means it is stackable and supports:

- AnkerMake (of course)
- Volcano
- MK6
- MK8

While not the most nozzle dense, I just wanted one to fit a full 10-pack. I also cleaned up some overlapping faces and model errors, and added back size labels to use some of the extra room.

Uses 4, 6x2mm magnets to better attach to the shelf, but doesn't require them. Compatible with other Gridfinity baseplates.

Let me know what you think! Check out my other AnkerMake Gridfinity bins as well:

- [M5 Shelf](#)
- [5x Silicone Covers + 8x Nozzles](#)
- [Spare Hotend + 6x Nozzles](#)

EDIT: 5/1/2023: Added 0.6 labeled version. Also lowered the height to match 3 height bins. This reduced filament and print time by about 30% and also makes it easier to take the nozzles out by hand. Enjoy!

EDIT: 9/28/2023: Now stackable! Dropped the interior face to allow stacking. Also added both 0.2 and 0.8 size label options

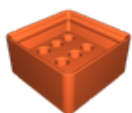

This remix is based on

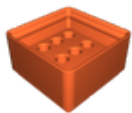

Gridfinity Nozzle Bin (Ankermake, volcano, Mk6, Mk8)

by Dark Squirrel Designs
