Summary

Trolley Token

[Fashion](#) > [Other Fashion Accessories](#)

This token can be attached to your keys so you never have to worry about carrying coins on you again, as we now mostly pay by card everywhere,

This is a super simple design but it is my first ever design.

I have printed this on the Kobra Max - 0.4 nozzle with a 0.15 layer height and 0.2 first layer height, with a line width of 0.2, 15% infill

Any comments and feedback welcome, always looking to make improvements :)
