Models

- 40mm-fan-grill: version that needs to be screwed on the fan. Should be compatible with any 40mm fan
- 40mm-fan-grill-clips: version that can be press fitted on Noctua fans. May be compatible with other fans, but not certain.

Print with

- 0.1 mm layer height
- 0.1 mm first layer height: this ensures the grill is made of 3 layers. Make sure your bed is correctly leveled, otherwise the nozzle could scratch the surface
