Funny Sign - "Everyone has the right to be stupid, but some people abuse the privilege"

Complete with recesses for 10mm x 1mm magnets to make the sign easily mountable on any flat ferrous surface.

One of the files is a multi-object file to make it easy to colour the text. (Select "Xray" view in the 3d viewer to see the text on the non-"raised text", multi-object file)

Smoothest results come from printing face down (text side down) on a smooth build plate.

2 additional versions (stl & 3mf) are provided which have raised text to make it easier to print without the facility of auto-changing filaments (eg if

you dont have a printer with an AMS, MMU, ETC) simply pause the print when it gets to the raised text and then swap colours.

Also included is a SVG file of the design
