I needed a 100mm to 75mm adapter that did not have a rectangular cutout in the center. So I took into Meshmixer and filled it in.

Like the original, print with dense infill to get more rigidity. Supports M4 and M5 nuts/bolts. M5 nuts need some force to get into the slots.

Printed with 0.4 infill (rectilinear).

Print Settings

Printer Brand:

Creality

Printer:

Ender 3 Pro
