### Summary

Handle lock to keep babies, pets, etc out of certain types of cabinets

[Household](#) > [Bathroom](#)

Tags: [lock](#) [baby](#) [safety](#) [cabinet](#)

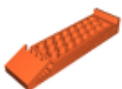

Redesigned R2 version to print on its side (as marked) for better cyclic endurance based on how the layers are arranged in FDM printing. Would recommend using that version.

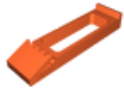

FWIW, the hexagon pattern doesn't really save any infill versus the middle having a solid shell, but it looks awesome IMO.

Use at your own risk - can break or fail
