Summary

A cover for the front panel of the Stream Deck Mini so you can change its color, texture, or material.

This is a simple cover for a Stream Deck Mini to change the style of its front panel. It has additional rounding on the inside so it will grip the front of the deck. It could potentially be improved by letting the lattice come closer to the surface of the Deck so it doesn't obstruct pressing the side of the buttons.

I printed this in generic wood PLA at 0.2mm, but I also tried PETG and it worked fine.
