updated 25. 4. 2023 | published 25. 4. 2023

Summary

An added item for the Leuchtturm Lighthouse model by Cheech Sascha.

[World & Scans](#) > [Architecture & Urbanism](#)

This transparent tube slips behind the fenster.stl in the model to make the lighthouse look a little more realistic.

I used transparent PLA at .2 layer height.

You should use a brim.
