Summary

My 1st attempt Modeling a Rose for Vase Mode! Inspired by the 45 RPM 7" Record Adapters I grew up on

I printed the Twisted Pineapple Vase by Dsk001 at 275%, 375mm High, to fill up my print volume (is 'print volume' correct?)! After I was amazed at how HUGE this thing was, I thought, "What am I gonna put in something so big?!?" So, I designed a Rose... It's big... And it's based off something that puts a smile on my face 😊

I grew up on my Mom's 8-tracks and 45s. That yellow plastic adapter, to me, is so Iconic! This was a really fun Model to create and to those of you who Download/Make it, You ROCK

Two versions:

Originally designed for 0.5mm Layer Height, but I've also added one for a 0.2mm Layer Height

Rose_45RPM Adapter_1.5 Center Hole_99mm High

- > Vase Mode
- > Suggest a 0.5mm Layer Height
- > 0 Top
- > 3 Bottom x 0.5 LH = 1.5
- > 1 Perimeter

Rose_45RPM Adapter_0.6 Center Hole_99mm High

- > Vase Mode
- > Suggest a 0.2mm Layer Height
- > 0 Top
- > 3 Bottom x 0.2 LH = 0.6
- > 1 Perimeter

Stem_45RPM Adapter_375mm High

- > Suggest a 0.2mm Layer Height
- > 3 Top
- > 3 Bottom
- > 6 Perimeter
- > 0% Infill

* I had issues with the Stem on the first print, so I tried it this way and it came out pretty clean.

V2 of the Stem will come soon. There's one Thorn, which are sharp BTW, that I don't like and I want to redo the top for easier printing.

Commercial Use means you can Make and Sell these! Please let me know if you do, because I think that would be Totally... Freakin... Awesome
