You need to store your batteries in something. This is YET ANOTHER thing you can store your batteries in, but unlike someother battery boxes:

- It prints real quick-like
- It stacks securely
- Nifty hexagon cutouts if you want them
- Labels in Fira Sans, which is a good-lookin' font
- C2 CONTINUOUS CURVESSSS

Print a box & an insert without any supports, then put one inside the other. If it doesn't work, try it the other way around.

(Yes, I named them like this so they could be YABB-AA & YABB-AAA. DABB-AA & DABB-AAA still to be uploaded, as soon as I figure out what they ought to be.)
