updated 30. 4. 2023 | published 30. 4. 2023

Summary

A Replacement Lens Cap for the Sigma 14-24 2.8 E-Mount. Needs to be sized up for Canon.

My friend keeps losing his Lens Caps so I took some time and modeled him cheap replacements.

The Fit is very tight. You might want to scale it up a little if you prefer a less tight fit.

I printed this on my Bambu P1P in around 30 minutes with PETG. PLA should work fine as well. You can easily add a 1mm Text Cutout to personalise your lenscap.
