This is something I designed at the height of the Covid pandemic. I am a member of the LDS church. During the time of Covid we as a church were told to stay home and warship as a family rather than go to church with everyone else. Also at this time, we were unable to partake of the sacrament (a bread and water(instead of wine)) ordinance similar to communion. Our church leaders said that we could do the sacrament at home.

This model is designed to fit the plastic cups that come from the church itself.

Cups linked here: <https://store.churchofjesuschrist.org/usa/en/sacrament-cups/5638700158.p?style=English&color=Plastic%2C+2000+cups&size=00004>

Print settings:

Any material

No need for supports. All models can lay flat on the build plate

As long as you can print a functioning 0.30mm tolerance, you should be fine.
