Summary

yet another filament guide

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [extruder](#) [filament](#) [guide](#) [slots](#)

this is another filament guide to be placed over the extruder. it differ from the other because of the scerw slots which allows it to be installed in most anet a8 versions. also it is the closest to the extruder hole i have ever printed.

the second file is the same thing but without the loophole.

You can find all my models [here](#), thank you who will appreciate with a **download** or with a **like**
