## Summary

Just a 2 part box with no hardware requirements, 2 parts that just push together at the hinges.

[3D Printers](#) > [Accessories](#)

Tags: [box](#) [3d](#) [fully](#) [printable](#)

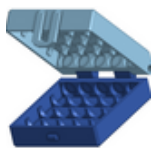

Fully 3D printable, no hardware.

Parts just snap together after printing in 2 pieces.

This is a derivative of my heat set box, but I messed up the history and cant add the improvements to it. So here is the box with the improvements!

My logo is imprinted on it since I was testing if I could merge models.
