### Summary

A replacement sling mount hook for the Worker Nightingale dart blaster

[Toys & Games](#) > [Outdoor Toys](#)

Tags: [blaster](#) [nerf](#) [sling](#)

A replacement sling mount hook for the Worker Nightingale blaster; tested for fitment only.

For best strength, use a high wall count/infill ratio.

---

There's not a great printing orientation for this part; either you do it vertically and let the clip be in the strong orientation but sacrifice the hook, or you do it horizontally and compromise the clip's strength. I've provided a variant without the lip to make horizontal printing easier as the tiny clip is optional. I'd personally opt for printing vertically since the hook has more material than the clips inside the blaster.

# Model files

## nightingale\_hook\_nolip.stl

☐ Printed in horizontal orientation, prioritizes the hook's strength + no overhang

## nightingale\_hook.stl

☐ Prioritizes the clip's strength at the cost of a potentially weaker hook and overhang
