### Summary

Brackets wrap around the Wurkkos FC-11 and WK-03 and grip them tightly for rigid mounting them anywhere with GoPro mount

[Hobby & Makers](#) > [Tools](#)

Tags: [gopro](#) [mount](#) [bracket](#) [flashlight](#)

These brackets wrap around the Wurkkos FC-11 and WK-03 and grip them tightly for rigid mounting them anywhere with GoPro mount. These are designed to fit into a standard 3-pronged GoPro-style mount which allows them to easily be mounted helmets, cars, bikes, etc.

These rely on some flexibility for initial installation, so ABS is a good material to print them with. They have not been tested with material other than ABS.
