This is a Remix of the stackable battery dispenser.
I really loved the idea behind the original design, but it did not fit my Ikea rechargeable batteries.

Benefits:

- higher tolerances for easier printing
 - more tolerance, to fit bigger batteries
 - overall 83,5mm width and depth to fit Gridfinity Standards
 - base- and top-lid fitted to Gridfinity Standards
 - labels with text
- Have fun!

This remix is based on

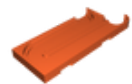

Gridfinity magnet stackable battery dispenser
