Summary

Bass reflex slot for speakers

[Gadgets](#) > [Audio](#)

Tags: [sound](#) [speaker](#) [bassreflex](#)

This is a slot for bass reflex speakers. I created it specifically for my self build speakers. It is printed on a textured PEI sheet to give it a more interesting look, but it should look awesome on a smooth buildplate. I printed it using black Formfutura premium PLA on my Ender 3 with 0,1mm layer hight.
