Summary

Two versions of Bob's Burgers sign, multicolor by layer

[Art & Design](#) > [2D Plates & Logos](#)

Tags: [linda](#) [tina](#) [burger](#) [bob](#) [belcher](#) [gene](#) [louise](#)

Made two versions of this, one with the family one without.

UPDATE: added Lindas glasses at the red layer, Tinas hair clip appears yellow now

it's a 4 colors print (yellow/red/black/pink) if you go for Louise's rabbit-ears, there is 2mm height difference between the colors for easy scaling in your slicer.

Adding holes for magnets or rope is easy in Prusaslicer so I prepared none...

as always I highly appreciate every like, rating or make, same for remixing and sharing.

donations will be forwarded to sea-watch.org
