Summary

Small container, with 2 magnets inside. A curved bottom for easier pick up.

[Household](#) > [Kitchen](#)

This is a small box that can sit on any magnetic surface. Small container, with 2 magnets inside. A curved bottom for easier pick up. I have used 16 mm by 8 mm by 3 mm, for a strong hold. Smaller magnets and the box begins to slide.
Included are 3 files:

box stl

a .3mf files with a pause to add the magnets.
and one with a color change to make the color coded boxes depicted.

Model files

whiteboard-box.stl

whiteboard-box_paused.3mf

☐ With pause for placing magnets

whiteboard-box_color.3mf
