This is a simple Shelly Plus 1PM adapter for the great “DIN Rail Bracket” from [Fabian@Fabian_172995](#). I used the heat insert version from [mmuellerphoto@mmuellerphoto](#)

You need 2x M3x10 countersunk screws to fix the adapter to the bracket.

This remix is based on

DIN Rail Bracket

by Fabian

DIN Rail Bracket - Heat Insert Version - 52.5mm & 62.5mm
