Summary

Simple humidity sensor holder that attaches to led bar above printer

Tags: [sensor](#) [humidity](#) [ledmount](#) [sensormount](#)
[humiditysensor](#) [sensorholder](#)

A simple and quick to print mount for the cheap rectangular humidity sensors to attach to this led light bar:

<https://www.printables.com/model/3267-led-light-bar-prusa-i3-mk2mk3>

I use double spool holder and therefore was not able to use any of the other existing sensor mounts for MK3. With this holder the sensor sits to the outside side of the printer and does not interfere with Z axis movement to the top position.

Fits both left and right side.
