Summary

Remixed version of Desktop Helical VAWT. This remix is intended only for decorative purposes only.

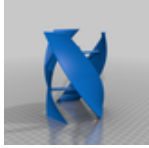

[Household](#) > [Outdoor & Garden](#)

Tags: [windmill](#) [vawt](#)

I wanted a decorative VAWT for the garden that will spin in the wind! I like [this model](#), but removed the center part as it is not needed for decorative use. Will easily spin on a small metal or wooden stake (e.g., tent peg, chopstick).

I printed with 0.6 nozzle and 0.4 layer height, but it doesn't really matter. Just make sure you print with supports (highly recommend tree/organic supports). Print with two perimeters and 0% infill to keep the weight down.
