updated 3. 5. 2023 | published 3. 5. 2023

Summary

Raises your printer about 46mm.

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [ender](#) [ender3](#) [feet](#) [riser](#)

You need to raise your printer if you want to install fan upgrades. These feet adapt to the ender 3 design and raise your printer so you can install larger fan covers underneath.
