Summary

A motor mount replacement for your vintage Kenner 1978 Star Wars X-Wing Starfighter.

[3D Printers](#) > [Accessories](#)

This may come in handy when restoring a broken motor in your vintage Kenner Star Wars X-Wing Fighter.

Printing settings

I recommend a layer height of 0.15 mm, but 0.20 mm should work as well.

Print with supports.

Assembly

Fits the following miniature high-performance motors:

- Case length: 25,0 mm
- Case: Ø 21,0 mm
- Nominal voltage 1,5 VDC

Example motor manufacturer: Mabuchi RE-140RA-2270 1,5V DC 0,42Watt

Hole diameter of motor mount: 4.50 mm

Enjoy!
