updated 4. 5. 2023 | published 4. 5. 2023

### Summary

Forward and up-angled tenting wedges for M575

[Gadgets](#) > [Computers](#)

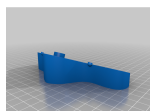

Two styles here:

1. Tilt with forward angle (normal desk use)
2. Tilt up with lower anchor to hold in place (for my poor basement ergo setup)

I like to keep two variations on desk and swap every few days to avoid repetitive injury, I think that helps...

.f3d if you want to tweak the angles yourself. It's a mess!
