Summary

This is a snap case for Raspberry Pi 4B, No Screws required.

[Gadgets](#) > [Computers](#)

Tags: [hat](#) [raspberry](#) [pi](#) [poe](#) [poehat](#)

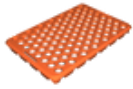

HexCase2 is a Pi 4B case that fits the POE Hat from Raspberry and many other Hat boards...

This case will need a new Case Bracket in order to mount onto the Prusa Mk3 frame.

The Stand keeps the Pi4b PCB in place from the fit/force of the top as it snaps into the base.

Take care to remove the MicroSD card before removing the Pi4B from the case.
