Summary

This model is just a stack of BB's . i needed some but only needed a few and didnt want to buy a whole bag.

This model is essentially a stack of BBs that can be broken apart either manually or using pliers, depending on the material used for printing. PLA seems to work well for this purpose, as it is both effective and biodegradable, making it perfect for BBs.

Model files

6mm-bbs-big-connect.stl

☐ works the best for me

6m-bbs-small-connect.stl

☐ The BBs connect with a smaller amount of material
