KJW M700 Barrel to M14 CCW Thread Adapter

Fits (snugly) over the unthreaded KJ Works M700 Rifle and adds M14 CCW threads for threading on muzzle devices (E.g airsoft tracer).

I made the sleeve that fits over the barrel long so it covers my orange barrel, and creates a larger surface area for the press-fit. There is also a file for just a barrel cover w/o threads for cosmetic reasons if ever needed.

Use standard supports, high infill.
