## Summary

Mount for small fire extinguisher on Clarke shelving units.

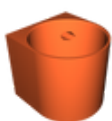

[Household](#) > [Outdoor & Garden](#)

Tags: [fire](#) [clarke](#)

I wanted to mount this little 10in1 fire extinguisher bottle in my shed but I was running out of wall space so I quickly designed this little holder that mounts between 2 Clarke shelving units.

All it needs is 2 short M6 bolts and 2 M6 nuts and its easily mounted on the holes already on the units.
