Photo enthusiasts like creative new ways to shoot pictures. A lens ball offers great opportunities for fantastic shots with a twist. But holding it in your hands and trying to make a great picture is not convenient. Therefore this simple mount/holder/stand for a 10 cm Lensball.

Print in PLA, no supports needed, 15% infill. Print time ~1h 31m

! The gcode is for the prusa mk3+ with MMU2S, however no color changes are selected.
