0.40 mm

ABS

8 g

Prusa MINI /  
MINI+

[Household](#) > [Outdoor & Garden](#)

The model is part of the ventilation window of the caravan. I recommend using UV resistant material. The original part cracked due to the sun. I used 4 perimeters and 30 infill + raft (i recommend for ABS)

This is right variant, use mirroring for the left variant

I used a support under the hemisphere, but it was probably not necessary.

Let him serve

Radek
