Summary

Dandelion (Pampeliška) as Label for Bottle with sirup or wine made from it

[Household](#) > [Kitchen](#)

Tags: [bottle](#) [label](#) [dandelion](#)

I made sirup and wine from Dandelions last week. Then I needed some labels to mark bottles with it. So I modified original model. Instead of clip I created bottle hinge with peg. Then I modified bloom to fit on this peg. Both parts are fixed by drop of glue.
