I redesigned the v2 version to be more rounded and sleek.

Product Introduction:

Hello everyone! I'm excited to share with you my 3D printed stand design for the PS5 controller. This stand is perfect for storing and displaying your PS5 controller, keeping your gaming space neat and organized. It features a unique geometric shape design, making the stand both visually appealing and practical. The ability to provide rear support has been increased and tested extensively to ensure that it is completely stable and will not topple over.

Design and Printing Details:

Design Tool: Fusion 360

Printer: Bambu Lab X1

Material: Bambu PLA Matte

Layer Height: 0.2mm

Infill: 15%

Support: No support needed

Printing Time: Approximately 3 hours

This stand is designed with simplicity and style in mind, providing a sturdy structure that is easy to print. Simply use the Bambu Lab X1 3D printer and Bambu PLA Matte material, print with a layer height of 0.2mm and 15% infill, without the need for support structures. The printing time is approximately 3 hours.

How to Use:

1. Import the downloaded 3D model file into the Bambu Lab X1 3D printer.
2. Use Bambu PLA Matte material for printing.
3. After printing, remove the stand and clean the surface.
4. Place the PS5 controller onto the stand.

I hope you all enjoy this PS5 controller stand and feel free to download and use it. If you have any questions or suggestions, please don't hesitate to leave a comment in the comment section, and I'll reply as soon as possible. Also, if you find this stand helpful, don't forget to leave a positive review! Thank you for your support!
