Summary

Support free and powerful clothes peg.

[Household](#) > [Other House Equipment](#)

Tags: [clip](#) [pin](#) [peg](#) [bagclip](#) [clothespin](#) [clothes](#)
[clothespeg](#)

Easy to print, easy to assemble, easy to use. Recommends 10 laundress out of 10. 😊

Recommended print settings and material

Perimeters: 3 (4 for spring)

Infill: at least 30%

Supports: no

Filament: spring only from **PETG** and other materials resistant to mechanical stress (don't use PLA), the rest of the peg can be made of almost anything

Special thanks to the creator of the YouTube channel Teaching Tech Michael Laws, who promoted this peg in his video entitled "**The best 3D prints to organize your life - Part 2**".
