This is a Charizard sculpture based on its original artwork on the cover of the (western version of) Pokémon Red Version. It was originally meant to be a display stand for a Game Boy cartridge. However, since I didn't want to stray too far away from its iconic pose, I refrained from having it hold the game in its claws or adding any conspicuous brackets. Instead, I just moved the tail out of the way a bit so that a game cartridge can be angled against it.

In addition to the regular single-color version, I have also included a painted multicolor version for both the MMU and AMS.
